Will your major medical insurance cover all of your bills?

Supplemental hospital indemnity insurance provides financial help to enhance your current coverage.

Your health insurance plan may pay only a portion of the total expenses a hospital stay or medical treatment requires. That likely would leave the rest of the bill for you to pay, plus any deductible or other expenses that are not covered by the plan. As a result, you could incur significant out-of-pocket expenses if you or a family member were hospitalized.

You don't want to be caught unprepared in a medical emergency and have to rely on your family's savings to cover the extra expenses you may face. This plan can help cover those expenses and protect your savings.
